GAMTOS ATEITIS

Please assess whether that which you intend to throw in to the sorted **paper and carton** packages waste container is a package / paper-waste?

Yes, it is – **packaging**

Is **the packaging** paper (carton)?

Yes, it is – **packaging** from paper, carton

Paper and carton food product packaging; carton boxes, corrugated carton boxes; paper bags; other paper and carton packages not soiled with food residues or other products

Please remove food residues from thrown-away packages in order not to taint other packages

Paper must be dry and clean. May contain an adhesive tape

If possible, please fold out the packaging being thrown away and press them - they will take up less space in the container

PAPER or general paper, plastic and metal container

It is a package, however comprised from different materials (thus, combined package)

"Tetra Pak", "Elopak" packages; chips bags, coffee packets, papers from ice-cream and candy, disposable cups for take-away coffee and other disposable food packages

Please remove liquid and food residues from thrown-away packages in order not to taint other packages

If possible, please fold out the packaging being thrown away and press them - they will take up less space in the container

PLASTIC or general paper, plastic, and metal container

No, it is **not a package**

Is it paper-waste or paper product?

Yes, it is – **paper-waste**

Newspapers, journals, books, fliers, and booklets; white and colour paper waste; packing paper

Paper must be dry and clean

May contain an adhesive tape

You do not need to remove paper-clips

No, it is **not paper-waste**

It is paper product

It is laminated paper, paper covered with plastic or foil, paper soiled by grease or oil

HOUSEHOLD (MIXED) WASTE CONTAINER

Close the covers of the containers!
Do not leave waste near the containers!
Do not bar the entrance!

However, if the thrown away packaging do not fit through the orifice of the container, the packaging should be divided in to smaller parts or tossed individually instead of a full bag. If even this way the waste does not fit, they must be delivered to the bulky or oversized waste collection yards.
